# ACCESSORIES

ReadDesk comes with the following Accessories:

Item	Description	
Alignment	Used to align document.	
Bar		
USB 2.0 Cable	Used to connect Camera to	
	Laptop or Desktop.	
Software	Used to install ReadDesk	
DVD	software and drivers.	

SETUP INSTRUCTIONS

 Insert the SOFTWARE DVD into your computer and install ReadDesk software.
See below for detailed installation instructions regarding your particular operating system:

#### Windows Vista/7/8

#### Windows XP

2) Connect one end of the USB 2.0 CABLE to the CAMERA USB port shown in Figure 2.

- 4) Connect the other end of the USB 2.0 CABLE to your LAPTOP or COMPUTER.
- 5) ReadDesk should **AUTOSTART** once the camera has been detected.

# For **MANUAL START**, double click **READDESK ICON** on your desktop or

use the keyboard by pressing "Ctrl + Shift + R" to start ReadDesk. 6) Ensure computer has an "Active Internet Connection" ↓ Pop-up "Product Registration" ↓ Enter your 11-digit serial number (located on your ReadDesk DVD) in textbox ↓ Click "Ok".

### FEATURES

### ALIGNMENT

 Start by placing the ReadDesk camera in the "Alignment Bar" as shown in Figure 3.

#### **Camera Head**

### Figure 3

2. Align the page using the "Alignment Bar" as shown in **Figure 4**.

Figure 4

 Pages can be oriented Right-Side Up or Upside-Down which is useful for reading textbooks without manually moving the camera as shown in Figure 5.

12

 Once the page has been correctly aligned, continue onto the "Reading" section.

[WARNING:] Improper placement of the alignment bar or incorrectly aligned page can negatively affect OCR results.

### READING

 Start reader by pressing Spacebar or Clicking on the Blue "Read" icon in the top right corner as shown in Figure 6.

Alternatively, you can use **Delayed Read** to read a page. To do a delayed read, hold **Spacebar for 3 seconds**. This will delay the image capture for **15 seconds** before it reads.

**Delayed Read** provides the user enough time to properly align, position, or switch out the page before the shot is taken.

### Read

6. Automatically brings up the Loading Screen as shown in Figure 7.

#### Pause

 After image is finished loading, reader will start automatically reading text aloud while highlighting text as shown in Figure 8.

Gather Data and Identify Goals and Objectives Your goal must be to obtain all the information needed to determine the type of mutual fun that would be suitable in view of the client's objectives and constraints. In some cases, the information obtained will lead you to suggest a revision of the client's objectives. For example, if a client has three dependants and no cash reserve, then it is premature to focus on long-term goals. The know-your-client rule requires that the mutual fund sales representative gather the following information, at a minimum when opening an account for a new client: The client's personal circumstances, including level of investment knowledge and tolerance for risk. The client's financial circumstances, including annual income and net worth. The client's financial goals, objectives and time housen. The client's age. Based upon the above and other information you gather, you can diligently decide mutual fund investments. Client account documentation should refle Dell
